Rishi Brihaspati rivaled against vedic masters who were worshipping multiple gods & claimed: that, this life that we have is the only life we have & that it should be enjoyed & lived well. & this is called 'Indian materialism' which holds that matter is everything & that there's nothing called spirit.

ch. 6 by Bharatmuni

Natya → Drama

Sastra → principles of / manual of

The Natyashastra was, acc. to legend written as the 5th
The story goes like this:

After continuous fighting b/w devas & asuras, devas approached brahman & told him that bcz of the the general population was gradually becoming immoral & chaotic. they said not all ppl on earth could read & in order to be better human beings, they needed some medium by which they could be trained morally.

Brahman replied that Shiva has already written a play. brahman understood thru that play that theatre is the model/vehicle/medium for instruction. He then called up Bharatamuni & asked him to write a manual for how to do a play. This included things like, w/ yajna to be performed before building the theatre house, the various div's for the hall, how the actors should perform, w/ clothing they'll wear & in Ch. 6, w/ happens in the of the spectator as he watches the play.

Since the Natyashastra was ultimately instructional
